All Wool Mackinaw Suit

This Mackinaw Suit is suitable for any outdoor work. The stag shirt and trousers, or breeches, if you prefer them, are made from heavy All Wool 34-ounce frieze material, a fabric that has greater strength and is woven more closely than ordinary mackinaw cloth. The workmanship is the usual Ward's standard, which means strong construction. Trousers have plain bottoms, breeches lace bottoms. Order the stag shirt with either trousers or breeches; or you may order any garment separately.

Compare Weights as Well as Prices

Notice carefully the weight of the material in the Mackinaw you buy. In each description we give the actual weight of the fabric based on a yard of cloth 54 inches wide. Mackinaws of lighter materials are sometimes offered at prices which at first glance seem more attractive; but comparison of weights as well as price will prove our values.

Good Style and Quality at Moderate Cost

A Happy Gift Idea Order Early

Riveted Frame

Cowhide $7.95

Sturdy and Attractive—Priced Extremely Low

Made of grain cowhide tanned by a special process to make it stand the hard usage it will have on trains, in depots, hotels, checkstands and taxicabs. Built to carry heavy loads without losing its shape; to stand hard traveling without easily showing scratches or to be out in all kinds of weather, yet always look well.

Don't judge the quality by our low price. This bag is well made. It is genuine surface hide, not split cowhide. Lined with soft tan sheepskin leather with pockets on each side. The leather handle is extra strong. Brass clasps and lock; corners reinforced with cowhide, sewed on. Six brass knobs protect bottom from rough handling. Shipping weight, 8 pounds.

Popular Bag Construction

Riveted Frame

This style frame, called Pin or Riveted, is used in the medium priced traveling bags. Riveting lowers the cost because it is cheaper and faster than sewing. This does not affect the quality or serviceability of the bag in any way.

Sewed Frame

This frame is the English sewed frame used in most high grade traveling bags. It is slightly more expensive than the Pin or Riveted frame because the sewing is all done by hand. It is somewhat stronger and more serviceable.

Read this Letter

"I received the Trunk and am very much satisfied with it. I have compared it with other trunks and find it superior to any at that price. I have a Traveling Bag I bought from Ward's twelve or fifteen years ago. The last three years it has made about 50,000 miles of very hard usage. It looks like it might stand about three more years of hard wear.

"I shall always be glad to speak a good word for you, as your low prices have meant a great saving for me." Bert A. Onsum, Glyndon, Minn.

98¢ A Garment — U.S. Army Underwear 60 Per Cent Wool

These fine wool garments actually cost the Government more than $2 each, yet we are offering them to you for only 98¢ for each garment. You may buy them singly or in our special combination offer. We bought an unusually large quantity of this underwear from the Government surplus stocks. Fortunately the lot included three pairs of drawers for every two shirts. Since shirts always outlast drawers, we are making this special combination offer: Three pairs of drawers and two shirts for $4.45. This makes the price of each garment only 89¢.

Comfortable Style—Well Made

More than half pure wool, the balance cotton—an excellent combination for warmth and long service. Made in the popular slip-over style without buttons. Drawers are ankle length with good fitting cuffs. Some of these garments are flat knit and some are ribbed knit. All are good quality and the same weight. A few of these garments may be slightly soiled from the packing cases. All are guaranteed absolutely new stock.

$10.98 144 Double Deck Coil Spring

Save at Least Five Dollars

COMPARE this comfortable Genuine Double Deck Coil Spring with any spring selling elsewhere for within $5 of our low price. The 144 double coil, cone shaped springs give a yielding, comfortable sleeping surface. These springs are made from tempered steel and are not to be confused with the so-called "triple coil springs" that are light in weight and sag easily.

Fits Both Wood and Metal Beds

The 144 coil springs are connected by 242 interlocking small coil springs—this not only holds them always in alignment but also makes the most comfortable sleeping surface known. Study the features illustrated at the right. Notice how the springs are fastened right through the strong steel base bars, and how the locked connecting wires pass through the center of each spring. These features absolutely prevent sagging. Notice also, the two strong double armed stabilizers, positively eliminating sidesway. Has special device that enables it to fit both wood and metal beds. Finished a rich brown. Shipping weights, about 80, 85 and 95 pounds. WIDTHS: 39, 48 or 54 inches. State width wanted.

Three Models to Choose From

Electric Engine Drive Hand Power

Electric Model

Big Value

$31.98

The Windsor Washing Machine is a high speed washer; simple and easy to use. Washes clothes clean without the slightest injury. You may order it with electric motor, with pulley for engine drive, or for hand power only. Each of the three models is a thoroughly reliable washer, priced about one third less than you would pay elsewhere for this quality. All operate on the same washing principle and have the same sturdy, dependable construction.

Other Washers Pages 464-467

Washes on Dolly Principle

One of the most efficient washing principles known. The wood dolly whirls the garment around in the tub, forcing the hot suds through every fiber of the clothes. This action drives out the dirt and leaves the clothes spotlessly clean. Tub is made of water resisting wood. Corrugated sides and bottom and double reinforced lid.

Many Labor Saving Devices

The lid may be raised without interfering with belt or flywheel. Tub has brass faucet drain. Wringer board. Electric model is equipped with motor of well known make. **Look at the brass plate on your electric meter to learn the voltage and cycles of your current and whether alternating or direct and state all three on your order when ordering.** Electric model only has casters. Both electric and engine drive models have a lever which may be operated by hand at any time. Capacity of tub: 6 sheets or 12 shirts or their equivalent.

24 HOUR SERVICE

What Does "24 Hour Service" Mean?

It means that when your order comes to us it is given immediate attention. At Montgomery Ward & Co. your order is not put away on a shelf, or in somebody's desk. But just as soon as it reaches us the work of getting your goods together is started.

It means that within 24 hours after your order is received, your goods are actually on their way to you. That they have been carefully selected, examined, packed and sent either to the Post Office, to the Express Office or are already in the freight car.

Most orders are shipped within 24 hours Nearly all orders in less than 48 hours

It has taken us two and one-half years to perfect this prompt service—to train the people who fill your orders.

Today our records prove that during the past year we have maintained 24 hour service. Most of our orders are shipped in 24 hours, and nearly all in less than 48 hours. But besides, one of our seven big houses is near to you. Your letter reaches us quicker. Your goods go to you quicker. It is quicker and cheaper, and more satisfactory to send all your orders to Montgomery Ward & Co.

Three Generations Are Ward's Customers

"My father became a customer of Ward's in 1873, and continued until his death. I began trading with you in 1896 when I married and now the third generation starts his housekeeping with a Montgomery Ward & Co. outfit. Fair treatment lies back of half a century of business dealing."

Ward's Sweater Serves Two Generations

"TWENTY years ago I bought the heaviest, highest priced sweater you had in stock. Today my son is wearing it to high school; it looks as good today as when I bought it and has not a single broken stitch. I doubt whether a better sweater could be made."

Albert Dickinson,
Rock Island, Ill.

Saves $80 a Year on Tires and Oil

"I DRIVE a Ford Truck on road work and use large amounts of oil, tires and tubes. I find I can save $80 a year by buying them from you. I have used about 100 gallons of Runrite Oil and it is the best oil I ever used—will stand up for a month without draining the crankcase."

"Buy a Progress—Be Happy on Wash Day"

"MY Progress Washer is wonderful. I used to dread wash day but now I find it very easy and quickly done. No matter how soiled the clothes are they come out perfectly clean in 15 minutes. My motto is 'Buy a Progress and Be Happy on Wash Day'."

Mrs. Reginald Riggle,

Ward's Bicycles Best

"RECEIVED my bicycle in excellent condition. I could not find one here as good for the money as this one. I am 12 years old and earned my bicycle myself delivering newspapers."

Saved $1600 on His Ready Cut Home

"I HAD two carpenters to help me put up my Wardway Home and they had lots of praise for Ward's Ready Cut Houses. The lumber is the finest grade and there was plenty of it. I saved about $1600 on the whole thing, including plumbing and heating plant; saved $900 on lumber alone. My pipeless furnace is a wonder. Kept the whole house nice and warm and burned less than five tons of coal. The plumber said my fixtures were the best money could buy. If I ever build another I will surely order a Ready Cut house from Montgomery Ward & Co."

Chris. Bissey,
Council Bluffs, Ia.

Even at $10 More This Suit Would Be a Bargain

"MY suit fits like a tailor-made, and if I were offered one like it here for $10 more I would consider it a bargain. Since I have worn it I appreciate it even more than I did at first. Truly, I have never been so well pleased."

Fine Record for Sattley

"IN November, 1917, I purchased from you a 5-horse power Sattley Gasoline Engine which I have used daily ever since in my shop—running emery, rip saw, disc, sharpener, and also doing custom grinding, running sheller and an 8-inch feed grinder. To date I have not paid one cent for repairs, nor has there been a day when it was not in running order. Anyone needing a good engine could not make a mistake in buying a Sattley from Montgomery Ward & Co."

Riverside Tires Stand the Hardest Knocks

"IN July, 1922, I bought my first Riverside Tire, and it was not off the wheel, or given new air, until I hit a stone culvert. I bent the axle double, and cut a standard cord tire completely in two—but there was only a hole the size of a quarter in the Riverside, and it got the hardest blow. For wear and service they can't be beaten."

Charlotte, Mich.

A Quarter Century of Faithful Service

"I PURCHASED an Improved High Arm Sewing Machine from you in 1898. It has been in use for more than 25 years and the needles I am sending for today are the first new parts ever needed."

Ward's Quick Service Makes This Boy Happy

"PLEASE accept our thanks for sending the boy's suit so promptly. Our boy was to be in a program on Saturday and we wanted to get him a new suit, but thought the time too short. Our order left LaPlatte Wednesday afternoon and the suit was here on Saturday. That is what we call real service."

Mrs. Ralph Hickman,
LaPlatte, Neb.

Lakeside Lightens the Labor of Ironing Day

"MY Lakeside is equal to the most expensive electric iron I ever used and I never want to be without it. It saves me half an hour on ironing day; I am never so tired as I used to be and it takes much less energy to make the clothes look as they should. Irons of this quality cost about twice as much here."

Mrs. W. A. Wanack,
Taylorville, Ill.

Fine Goods, Well Packed, Promptly Shipped

"I HAVE been so pleased with the service rendered by your company. I like to deal with Ward's because the goods generally prove even better than I expected; because you wrap articles so carefully that there is little risk of their being lost in the mails; and because all shipments are made so promptly."

Ward's Sturdy Harness Stands Hard Service

"I HAVE put this harness to some gruelling tests, as my team weighs 2800 pounds and is the snappy type. I used the harness for logging and have pulled logs scaling 400 pounds. I snapped a ⅜-inch logging chain but never fazed the harness."

Fred Bendickson, Auburndale, Wis.

Long Service Is Proof of Good Quality

"THE Mackinaw shirt bought of you in 1919 is the greatest shirt I ever saw. It has been on four hunting trips, three weeks each, besides all the other wear I have given it. "After five years service I would not sell it for the price I paid for it."

George O. Jackson,
Three Rivers, Mich.

You Save Much More Than the Freight

Remember, the savings when trading with Ward's are much greater than the freight charges. In other words, you pay the transportation charges and are still far ahead.

You Pay the Freight Wherever You Buy

When you buy from Ward's catalogue, you pay transportation charges (freight or express), when the goods arrive. When you buy from a local retailer, he pays the freight and includes it in his price to you. So you really pay it either way.

Send No Money for Freight

In ordering do not send additional money to pay freight shipping charges if your station has an agent. If there is no agent, send money for payment in advance. Any balance will be returned to you. Charges are the same whether you pay in advance or on delivery.

Write to Us for Exact Shipping Charges

If you wish to know exactly what the freight charges will be on any item, simply write us for that information. Our expert freight clerks will figure it for you.

What Will the Freight Charges Be?

"I WONDER what the freight charges will be?" That question naturally comes to your mind as you make out your orders. To help you answer this question, Ward's has worked out a new plan. You will notice that the catalogue descriptions of many of our heavy items include the statement, "Estimated Total Freight Charges." Under this heading are shown approximate freight charges on that particular merchandise for distances of 150 miles, 300 miles and 500 miles.

No matter what distance you live from the point of shipment, these estimated freight charges will give you a good idea of what your total freight charge for this particular merchandise will be. Of course, if you live within 150 miles, you will understand that your charge would be somewhat less than the 150 mile estimate; if you live within 150 and 300 miles, your amount will be somewhere between the two amounts shown for the two distances. You can estimate it quickly and easily.

If you live farther than 500 miles from the point of shipment you can estimate that charge for 750 miles is about double the 300 mile amount and for a thousand miles about double the 500 mile amount. Because freight charges vary somewhat in various parts of the country, it is impossible for us to give you the exact charges for these distances. So we do not guarantee that the charges to your station will be exactly as we show them, but as a rule, there will be no great difference.

We Keep Your Freight Charges Low

Whenever and wherever manufactured or raw materials are moved someone must pay the transportation charges. Ward's realizes this, and has taken particular care to reduce the movement of merchandise to the minimum and thus keep the cost to customers low.

Factory Shipments Save You Money

An example of this is the shipping of some of our heavy articles direct to you from our factories. We do everything possible to increase your savings.

About Ward's Factory Shipments

We have made arrangements in many cases to ship heavy or bulky merchandise direct from the factory to you. This saves you part of the freight charges that would otherwise have to be paid.

Charges Estimated from Shipping Point

Catalogue descriptions tell you when an article is to be shipped from a warehouse or factory direct to you and the estimated freight charges shown with the item are based on charges from the factory or warehouse not from our house.

You Save Money on Every Purchase at Ward's

How to Estimate Express Charges—Freight Charges Shown on Page 331

This is an official scale of Graduated Express Charges.

These rates were in effect when this catalogue was printed. They are subject to change.

First refer to Table C at bottom of Page 331 and find the express rate to your nearest station.

In the column below under your express rate for 100 pounds, will be found the amount you will have to pay on express shipments from 1 to 50 pounds. If the exact weight of your goods or the rate to your station is not shown, refer to the next higher rate or weight and the result will be within a few cents of the correct charge. For example, if you find by referring to the table on Page 331 that the rate to your town is $2.85 per 100 pounds, and your packages weigh 15 pounds, the express charge will be 72¢, except on groceries. The charge on foodstuffs is one-fourth less than the charge on other merchandise.

Express is a quick and safe method of shipping. The express agent in your town will explain his company's service, and will tell you the correct charges on any shipment.

When the Rate Per 100 Lbs. Is	$1.05	$1.25	$1.45	$1.85	$2.05	$2.25	$2.45	$2.65	$2.85	$3.10	$3.40	$3.75	$4.00	$4.25	$4.55	$4.80	$5.00	When the Rate Per 100 Lbs. Is

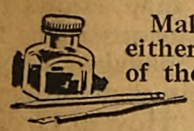
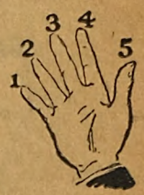
It Is Easy to Order from Ward's

Write with Pen or Pencil



Making out the order is simple and easy. Use either pen or pencil and write plainly, on one of the Order Blanks in the back of this book or on any ordinary sheet of paper. Additional Order Blanks, if wanted, will be sent on request. Write in any language. Examples of properly filled order blanks are printed on Pages 692 and 694.

Information Needed



In addition to your Name and Address, there are five other important facts to give us for each article you select—

1. Article Number
2. Quantity Wanted
3. Name of Article
4. Size, Color, Finish
5. Price

Be sure to state how you want goods shipped—Parcel Post, Freight or Express.

Order Under One Name

It will help us to keep our records straight and avoid mistakes if you have all orders from one household sent under one name, preferably the head of the household, written plainly and in full. Always write the name the same way. For example—if you usually order under the name John J. White, do not sign J. J. White or John White. Be sure to state whether Mr., Mrs. or Miss. Give your Post Office and State. If you live in town, give street and house number or Post Office box number. If you live in the country, give Rural Route number.

How to Send Money

Send remittances in the form of Post Office Money Order, Express Money Order, Bank Draft or Personal Check. If you must send cash, send it by **registered** mail securely folded in heavy paper. If you live on a Rural Route, the carrier will take your money and order to the Post Office where he will buy a money order, enclose it with your order and mail it to us. When goods are to be shipped by Parcel Post, be sure to include additional amount to cover postage. State exact amount of money sent with order.

Other Useful Information

Use the Index

On the pages just preceding this one is a complete index of all the articles shown in this catalogue. It will enable you to find quickly anything in which you are interested. Refer to it often, because it is not only our store directory but in the list of thousands of items, there are many suggestions of merchandise on which you can save money at Ward's.

If You Have Moved

Let us know whenever you change your post-office address, street address or rural route number. The best way to do this is to use your new address in the spaces at the top of the order blank and at the bottom write "Formerly of ....." giving your old address.

To Estimate Postage

On many articles shown in this catalogue we tell you the amount to send for postage so that it is not necessary for you to figure it. Where only the shipping weight is given on articles which can be shipped by parcel post Page 330 tells how to find the amount to send for parcel post charges.

Express Shipments

When your order is to be shipped by express and there is no express agent at your town or station you should give us the name of the town nearest you where there is an express agent. You pay him the express charges when you get the goods. For further information on express shipments, see Page 328.

Freight Charges

The estimated freight charges shown throughout this book are intended to give you an idea of how comparatively little it costs to ship goods by freight. If there is a freight agent at your station it is not necessary for you to send money to pay freight or express shipping charges and there is no advantage in doing so—you can pay the agent when the goods arrive. If there is not a freight agent at your station, send us sufficient additional money to prepay the charges.

How to Send Goods to Us

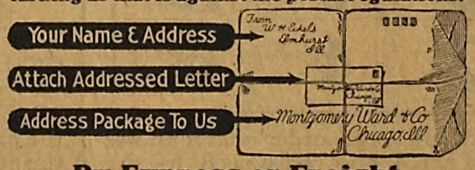
WE always try to serve our customers so well that it will not be necessary to return anything. Remember, however, we want you always to be entirely satisfied and under our guarantee you are at liberty to send back anything which is not perfectly satisfactory. Should it be necessary for you to return anything bought at Ward's we would appreciate your telling us just what is wrong, because what you say may help us improve our merchandise or our service.

By Parcel Post

Pack securely in box or heavy paper and tie with strong cord. Address the package to us and write your name and address on it. See illustration below. Write a letter telling why goods are returned and whether you wish other goods in exchange or your money refunded. Place this letter in an envelope addressed to us. **Seal the envelope and paste it on the package under the string as shown in the illustration below.**

In this way the package and letter will reach us at the same time, which will enable us to give them prompt attention. **Do not seal the package.** Place a two-cent stamp on the envelope and sufficient postage on the package.

Do not enclose any letters or messages inside the parcel containing goods that you may be returning as that is against the postal regulations.



By Express or Freight

Pack securely and address to us and be sure that your name and address are on the package or crate. Deliver to Railroad or Express Company whose agent will give you a receipt. Enclose the agent's receipt in your letter to us.

To Send Goods to a Factory

If the merchandise was shipped to you direct from one of our factories, be sure to write us for shipping instructions before returning.

Special Requests

Should you wish any of our special catalogues, or any information, you can write your request on the bottom of your order or write us a letter or post card and it will be given prompt attention. We read all letters and orders carefully so do not hesitate to write us at any time.

Shipments to Other Persons

If you want goods shipped to someone else, make out your order in the usual way and write across the bottom of the order thus: "To be shipped to..... .....filling in, of course, the correct name and address.

Different Shipping Point

If your shipping point is not the same as your Post Office, there is a space at the top of the order blank in which to give us the proper shipping instructions.

Club Orders Save You Money

By getting neighbors or relatives to include their orders with yours, you can often build up a freight order and thus reduce the transportation cost to each person ordering.

We Have No Agents

Ward's has no agents authorized to collect money from our customers. We give no discounts or commissions. Prices are strictly as quoted in the catalogue. Our business is conducted only through our houses at Chicago, Kansas City, St. Paul, Baltimore, Portland, Ore., Oakland, Calif., Fort Worth and New York City. Any person soliciting orders for Montgomery Ward & Co. or seeking to collect money to pay for merchandise is an impostor.

When our buyers and other executives are sent out to call on customers and secure information as to how we can serve them better, they carry credentials signed by an officer of the Company. In no instance will they solicit or accept money from our customers.

The Oxford

Good Style and Quality at Moderate Cost

Riveted Frame — Cowhide $7.95

Sturdy and Attractive—Priced Extremely Low

Made of grain cowhide tanned by a special process to make it stand the hard usage it will have on trains, in depots, hotels, checkstands and taxicabs. Built to carry heavy loads without losing its shape; to stand hard traveling without easily showing scratches or to be out in all kinds of weather, yet always look well.

Don't judge the quality by our low price. This bag is well made. It is genuine surface hide, not split cowhide. Lined with soft tan sheepskin leather with pockets on each side. The leather handle is extra strong. Brass clasps and lock; corners reinforced with cowhide, sewed on. Six brass knobs protect bottom from rough handling. Shipping weight, 8 pounds.

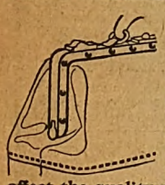
Popular Bag Construction



Riveted Frame

This style frame, called Pin or Riveted, is used in the medium priced traveling bags. Riveting lowers the cost because it is cheaper and faster than sewing. This does not affect the quality or serviceability of the bag in any way.

Sewed Frame

This frame is the English sewed frame used in most high grade traveling bags. It is slightly more expensive than the Pin or Riveted frame because the sewing is all done by hand. It is somewhat stronger and more serviceable.

"I received the Trunk and am very much satisfied with it. I have compared it with other trunks and find it superior to any at that price. I have a Traveling Bag I bought from Ward's twelve or fifteen years ago. The last three years it has made about 50,000 miles of very hard usage. It looks like it might stand about three more years of hard wear.

"I shall always be glad to speak a good word for you, as your low prices have meant a great saving for me." Bert A. Onsum, Glyndon, Minn.

$2.95 All Wool Worsted

For general utility wear we offer you our Army style Knickers in your choice of either heavy weight All Wool worsted or heavy khaki twill. Both of these styles were used by our regular army, and are made over government specifications from government surplus stock. May be worn with puttees, wrap leggings or high shoes, which make them popular with farmers, chauffeurs, teamsters, linemen and sportsmen. The olive drab color is practical because it does not show dust or dirt easily. Seams are double sewed and points of strain are bar tacked to guard against ripping. The double knees are a desirable feature from the standpoint of long service.

State waist measurement wanted; also your height and weight. Read "How to Order" on Page 255.

98¢ A Garment — U.S. Army Underwear 60 Per Cent Wool

These fine wool garments actually cost the Government more than $2 each, yet we are offering them to you for only 98¢ for each garment. You may buy them singly or in our special combination offer. We bought an unusually large quantity of this underwear from the Government surplus stocks. Fortunately the lot included three pairs of drawers for every two shirts. Since shirts always outlast drawers, we are making this special combination offer: Three pairs of drawers and two shirts for $4.45. This makes the price of each garment only 89¢.

Comfortable Style—Well Made

More than half pure wool, the balance cotton—an excellent combination for warmth and long service. Made in the popular slip-over style without buttons. Drawers are ankle length with good fitting cuffs. Some of these garments are flat knit and some are ribbed knit. All are good quality and the same weight. A few of these garments may be slightly soiled from the packing cases. All are guaranteed absolutely new stock.

$10.98 144 Double Deck Coil Spring

Save at Least Five Dollars

COMPARE this comfortable Genuine Double Deck Coil Spring with any spring selling elsewhere for within $5 of our low price. The 144 double coil, cone shaped springs give a yielding, comfortable sleeping surface. These springs are made from tempered steel and are not to be confused with the so-called "triple coil springs" that are light in weight and sag easily.

Fits Both Wood and Metal Beds

The 144 coil springs are connected by 242 interlocking small coil springs—this not only holds them always in alignment but also makes the most comfortable sleeping surface known. Study the features illustrated at the right. Notice how the springs are fastened right through the strong steel base bars, and how the locked connecting wires pass through the center of each spring. These features absolutely prevent sagging. Notice also, the two strong double armed stabilizers, positively eliminating sidesway. Has special device that enables it to fit both wood and metal beds. Finished a rich brown. Shipping weights, about 80, 85 and 95 pounds. WIDTHS: 39, 48 or 54 inches. State width wanted.

Washing Made Easy Ward's Windsor Washing Machine

Three Models to Choose From

Electric
Engine Drive
Hand Power

Big Value

Electric Model $31.98

The Windsor Washing Machine is a high speed washer; simple and easy to use. Washes clothes clean without the slightest injury. You may order it with electric motor, with pulley for engine drive, or for hand power only. Each of the three models is a thoroughly reliable washer, priced about one third less than you would pay elsewhere for this quality. All operate on the same washing principle and have the same sturdy, dependable construction.

Washes on Dolly Principle

One of the most efficient washing principles known. The wood dolly whirls the garment around in the tub, forcing the hot suds through every fiber of the clothes. This action drives out the dirt and leaves the clothes spotlessly clean. Tub is made of water resisting wood. Corrugated sides and bottom and double reinforced lid.

Other Washers Pages 464-467

Many Labor Saving Devices

The lid may be raised without interfering with belt or flywheel. Tub has brass faucet drain. Wringer board. Electric model is equipped with motor of well known make. **Look at the brass plate on your electric meter to learn the voltage and cycles of your current and whether alternating or direct and state all three on your order when ordering.** Electric model only has casters. Both electric and engine drive models have a lever which may be operated by hand at any time. Capacity of tub: 6 sheets or 12 shirts or their equivalent.

24 HOUR SERVICE

What Does "24 Hour Service" Mean?

It means that when your order comes to us it is given immediate attention. At Montgomery Ward & Co. your order is not put away on a shelf, or in somebody's desk. But just as soon as it reaches us the work of getting your goods together is started.

It means that within 24 hours after your order is received, your goods are actually on their way to you. That they have been carefully selected, examined, packed and sent either to the Post Office, to the Express Office or are already in the freight car.

Most orders are shipped within 24 hours Nearly all orders in less than 48 hours

It has taken us two and one-half years to perfect this prompt service—to train the people who fill your orders.

Today our records prove that during the past year we have maintained 24 hour service. Most of our orders are shipped in 24 hours, and nearly all in less than 48 hours. But besides, one of our seven big houses is near to you. Your letter reaches us quicker. Your goods go to you quicker. It is quicker and cheaper, and more satisfactory to send all your orders to Montgomery Ward & Co.

Three Generations Are Ward's Customers

"MY father became a customer of Ward's in 1873, and continued until his death. I began trading with you in 1896 when I married and now the third generation starts his housekeeping with a Montgomery Ward & Co. outfit. Fair treatment lies back of half a century of business dealing."

Ward's Sweater Serves Two Generations

"TWENTY years ago I bought the heaviest, highest priced sweater you had in stock. Today my son is wearing it to high school; it looks as good today as when I bought it and has not a single broken stitch. I doubt whether a better sweater could be made."

Saves $80 a Year on Tires and Oil

"I DRIVE a Ford Truck on road work and use large amounts of oil, tires and tubes. I find I can save $80 a year by buying them from you. I have used about 100 gallons of Runrite Oil and it is the best oil I ever used—will stand up for a month without draining the crankcase."

William Roberts, Arena, Wis.

"Buy a Progress—Be Happy on Wash Day"

"MY Progress Washer is wonderful. I used to dread wash day but now I find it very easy and quickly done. No matter how soiled the clothes are they come out perfectly clean in 15 minutes. My motto is 'Buy a Progress and Be Happy on Wash Day'."

Mrs. Reginald Riggle,
Newton Falls, Ia.

Ward's Bicycles Best

"RECEIVED my bicycle in excellent condition. I could not find one here as good for the money as this one. I am 12 years old and earned my bicycle myself delivering newspapers."

Saved $1600 on His Ready Cut Home

"I HAD two carpenters to help me put up my Wardway Home and they had lots of praise for Ward's Ready Cut Houses. The lumber is the finest grade and there was plenty of it. I saved about $1600 on the whole thing, including plumbing and heating plant; saved $900 on lumber alone. My pipeless furnace is a wonder. Kept the whole house nice and warm and burned less than five tons of coal. The plumber said my fixtures were the best money could buy. If I ever build another I will surely order a Ready Cut house from Montgomery Ward & Co."

Even at $10 More This Suit Would Be a Bargain

"My suit fits like a tailor-made, and if I were offered one like it here for $10 more I would consider it a bargain. Since I have worn it I appreciate it even more than I did at first. Truly, I have never been so well pleased."

C. F. Rustin, Butler, Ga.

Fine Record for Sattley

"IN November, 1917, I purchased from you a 5-horse power Sattley Gasoline Engine which I have used daily ever since in my shop—running emery, rip saw, disc, sharpener, and also doing custom grinding, running sheller and an 8-inch feed grinder. To date I have not paid one cent for repairs, nor has there been a day when it was not in running order. Anyone needing a good engine could not make a mistake in buying a Sattley from Montgomery Ward & Co."

Riverside Tires Stand the Hardest Knocks

"IN July, 1922, I bought my first Riverside Tire, and it was not off the wheel, or given new air, until I hit a stone culvert. I bent the axle double, and cut a standard cord tire completely in two—but there was only a hole the size of a quarter in the Riverside, and it got the hardest blow. For wear and service they can't be beaten."

Charlotte, Mich.

A Quarter Century of Faithful Service

"I PURCHASED an Improved High Arm Sewing Machine from you in 1898. It has been in use for more than 25 years and the needles I am sending for today are the first new parts ever needed."

Ward's Quick Service Makes This Boy Happy

"PLEASE accept our thanks for sending the boy's suit so promptly. Our boy was to be in a program on Saturday and we wanted to get him a new suit, but thought the time too short. Our order left LaPlatte Wednesday afternoon and the suit was here on Saturday. That is what we call real service."

Mrs. Ralph Hickman,
LaPlatte, Neb.

Lakeside Lightens the Labor of Ironing Day

"MY Lakeside is equal to the most expensive electric iron I ever used and I never want to be without it. It saves me half an hour on ironing day; I am never so tired as I used to be and it takes much less energy to make the clothes look as they should. Irons of this quality cost about twice as much here."

Mrs. W. A. Wanack,
Taylorville, Ill.

Fine Goods, Well Packed, Promptly Shipped

"I HAVE been so pleased with the service rendered by your company. I like to deal with Ward's because the goods generally prove even better than I expected; because you wrap articles so carefully that there is little risk of their being lost in the mails; and because all shipments are made so promptly."

Ward's Sturdy Harness Stands Hard Service

"I HAVE put this harness to some gruelling tests, as my team weighs 2800 pounds and is the snappy type. I used the harness for logging and have pulled logs scaling 400 pounds. I snapped a 3/8-inch logging chain but never fazed the harness."

Long Service Is Proof of Good Quality

"THE Mackinaw shirt bought of you in 1919 is the greatest shirt I ever saw. It has been on four hunting trips, three weeks each, besides all the other wear I have given it. "After five years service I would not sell it for the price I paid for it."

George O. Jackson, Three Rivers, Mich.

You Save Much More Than the Freight

Remember, the savings when trading with Ward's are much greater than the freight charges. In other words, you pay the transportation charges and are still far ahead.

You Pay the Freight Wherever You Buy

When you buy from Ward's catalogue, you pay transportation charges (freight or express), when the goods arrive. When you buy from a local retailer, he pays the freight and includes it in his price to you. So you really pay it either way.

Send No Money for Freight

In ordering do not send additional money to pay freight shipping charges if your station has an agent. If there is no agent, send money for payment in advance. Any balance will be returned to you. Charges are the same whether you pay in advance or on delivery.

Write to Us for Exact Shipping Charges

If you wish to know exactly what the freight charges will be on any item, simply write us for that information. Our expert freight clerks will figure it for you.

What Will the Freight Charges Be?

"I WONDER what the freight charges will be?" That question naturally comes to your mind as you make out your orders. To help you answer this question, Ward's has worked out a new plan. You will notice that the catalogue descriptions of many of our heavy items include the statement, "Estimated Total Freight Charges." Under this heading are shown approximate freight charges on that particular merchandise for distances of 150 miles, 300 miles and 500 miles.

No matter what distance you live from the point of shipment, these estimated freight charges will give you a good idea of what your total freight charge for this particular merchandise will be. Of course, if you live within 150 miles, you will understand that your charge would be somewhat less than the 150 mile estimate; if you live within 150 and 300 miles, your amount will be somewhere between the two amounts shown for the two distances. You can estimate it quickly and easily.

If you live farther than 500 miles from the point of shipment you can estimate that charge for 750 miles is about double the 300 mile amount and for a thousand miles about double the 500 mile amount. Because freight charges vary somewhat in various parts of the country, it is impossible for us to give you the exact charges for these distances. So we do not guarantee that the charges to your station will be exactly as we show them, but as a rule, there will be no great difference.

We Keep Your Freight Charges Low

Whenever and wherever manufactured or raw materials are moved, someone must pay the transportation charges. Ward's realizes this, so has taken particular care to reduce the movements of merchandise to the minimum and thus keep the cost to customers low.

Factory Shipments Save You Money

An example of this is the shipping of some of our heavy articles direct to you from our factories. We do everything possible to increase your savings.

About Ward's Factory Shipments

We have made arrangements in many cases to ship heavy or bulky merchandise direct from the factory to you. This saves you part of the freight charges that would otherwise have to be paid.

Charges Estimated from Shipping Point

Catalogue descriptions tell you when an article is to be shipped from a warehouse or factory direct to you and the estimated freight charges shown with the item are based on charges from the factory or warehouse not from our house.

You Save Money on Every Purchase at Ward's

How to Estimate Express Charges—Freight Charges Shown on Page 331

This is an official scale of Graduated Express Charges.

These rates were in effect when this catalogue was printed. They are subject to change.

First refer to Table C at bottom of Page 331 and find the express rate to your nearest station.

In the column below under your express rate for 100 pounds, will be found the amount you will have to pay on express shipments from 1 to 50 pounds. If the exact weight of your goods or the rate to your station is not shown, refer to the next higher rate or weight and the result will be within a few cents of the correct charge. For example, if you find by referring to the table on Page 331 that the rate to your town is $2.85 per 100 pounds, and your packages weigh 15 pounds, the express charge will be 72¢, except on groceries. The charge on foodstuffs is one-fourth less than the charge on other merchandise.

Express is a quick and safe method of shipping. The express agent in your town will explain his company's service, and will tell you the correct charges on any shipment.

When the Rate Per 100 Lbs. Is	$1.05	$1.25	$1.45	$1.85	$2.05	$2.25	$2.45	$2.65	$2.85	$3.10	$3.40	$3.75	$4.00	$4.25	$4.55	$4.80	$5.00	When the Rate Per 100 Lbs. Is

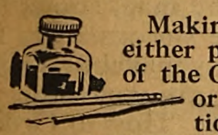
How to Order

It Is Easy to Order from Ward's

Write with Pen or Pencil



Making out the order is simple and easy. Use either pen or pencil and write plainly, on one of the Order Blanks in the back of this book or on any ordinary sheet of paper. Additional Order Blanks, if wanted, will be sent on request. Write in any language. Examples of properly filled order blanks are printed on Pages 692 and 694.

Information Needed

In addition to your Name and Address, there are five other important facts to give us for each article you select—

1. Article Number
2. Quantity Wanted
3. Name of Article
4. Size, Color, Finish
5. Price

Be sure to state how you want goods shipped—Parcel Post, Freight or Express.

Order Under One Name

It will help us to keep our records straight and avoid mistakes if you have all orders from one household sent under one name, preferably the head of the household, written plainly and in full. Always write the name the same way. For example—if you usually order under the name John J. White, do not sign J. J. White or John White. Be sure to state whether Mr., Mrs. or Miss. Give your Post Office and State. If you live in town, give street and house number or Post Office box number. If you live in the country, give Rural Route number.

How to Send Money

Send remittances in the form of Post Office Money Order, Express Money Order, Bank Draft or Personal Check. If you must send cash, send it by **registered** mail securely folded in heavy paper. If you live on a Rural Route, the carrier will take your money and order to the Post Office where he will buy a money order, enclose it with your order and mail it to us. When goods are to be shipped by Parcel Post, be sure to include additional amount to cover postage. State exact amount of money sent with order.

Other Useful Information

Use the Index

On the pages just preceding this one is a complete index of all the articles shown in this catalogue. It will enable you to find quickly anything in which you are interested. Refer to it often, because it is not only our store directory but in the list of thousands of items, there are many suggestions of merchandise on which you can save money at Ward's.

If You Have Moved

Let us know whenever you change your post-office address, street address or rural route number. The best way to do this is to use your new address in the spaces at the top of the order blank and at the bottom write "Formerly of ....." giving your old address.

To Estimate Postage

On many articles shown in this catalogue we tell you the amount to send for postage so that it is not necessary for you to figure it. Where only the shipping weight is given on articles which can be shipped by parcel post Page 330 tells how to find the amount to send for parcel post charges.

Express Shipments

When your order is to be shipped by express and there is no express agent at your town or station you should give us the name of the town nearest you where there is an express agent. You pay him the express charges when you get the goods. For further information on express shipments, see Page 328.

Freight Charges

The estimated freight charges shown throughout this book are intended to give you an idea of how comparatively little it costs to ship goods by freight. If there is a freight agent at your station it is not necessary for you to send money to pay freight or express shipping charges and there is no advantage in doing so—you can pay the agent when the goods arrive. If there is not a freight agent at your station, send us sufficient additional money to prepay the charges.

How to Send Goods to Us

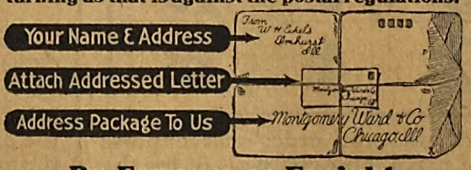
WE always try to serve our customers so well that it will not be necessary to return anything. Remember, however, we want you always to be entirely satisfied and under our guarantee you are at liberty to send back anything which is not perfectly satisfactory. Should it be necessary for you to return anything bought at Ward's we would appreciate your telling us just what is wrong, because what you say may help us improve our merchandise or our service.

By Parcel Post

Pack securely in box or heavy paper and tie with strong cord. Address the package to us and write your name and address on it. See illustration below. Write a letter telling why goods are returned and whether you wish other goods in exchange or your money refunded. Place this letter in an envelope addressed to us. **Seal the envelope and paste it on the package under the string as shown in the illustration below.**

In this way the package and letter will reach us at the same time, which will enable us to give them prompt attention. **Do not seal the package.** Place a two-cent stamp on the envelope and sufficient postage on the package.

Do not enclose any letters or messages inside the parcel containing goods that you may be returning as that is against the postal regulations.



By Express or Freight

Pack securely and address to us and be sure that your name and address are on the package or crate. Deliver to Railroad or Express Company whose agent will give you a receipt. Enclose the agent's receipt in your letter to us.

To Send Goods to a Factory

If the merchandise was shipped to you direct from one of our factories, be sure to write us for shipping instructions before returning.

Special Requests

Should you wish any of our special catalogues, or any information, you can write your request on the bottom of your order or write us a letter or post card and it will be given prompt attention. We read all letters and orders carefully so do not hesitate to write us at any time.

Shipments to Other Persons

If you want goods shipped to someone else, make out your order in the usual way and write across the bottom of the order thus: "To be shipped to..... .....filling in, of course, the correct name and address.

Different Shipping Point

If your shipping point is not the same as your Post Office, there is a space at the top of the order blank in which to give us the proper shipping instructions.

Club Orders Save You Money

By getting neighbors or relatives to include their orders with yours, you can often build up a freight order and thus reduce the transportation cost to each person ordering.

We Have No Agents

Ward's has no agents authorized to collect money from our customers. We give no discounts or commissions. Prices are strictly as quoted in the catalogue. Our business is conducted only through our houses at Chicago, Kansas City, St. Paul, Baltimore, Portland, Ore., Oakland, Calif., Fort Worth and New York City. Any person soliciting orders for Montgomery Ward & Co. or seeking to collect money to pay for merchandise is an impostor.

When our buyers and other executives are sent out to call on customers and secure information as to how we can serve them better, they carry credentials signed by an officer of the Company. In no instance will they solicit or accept money from our customers.

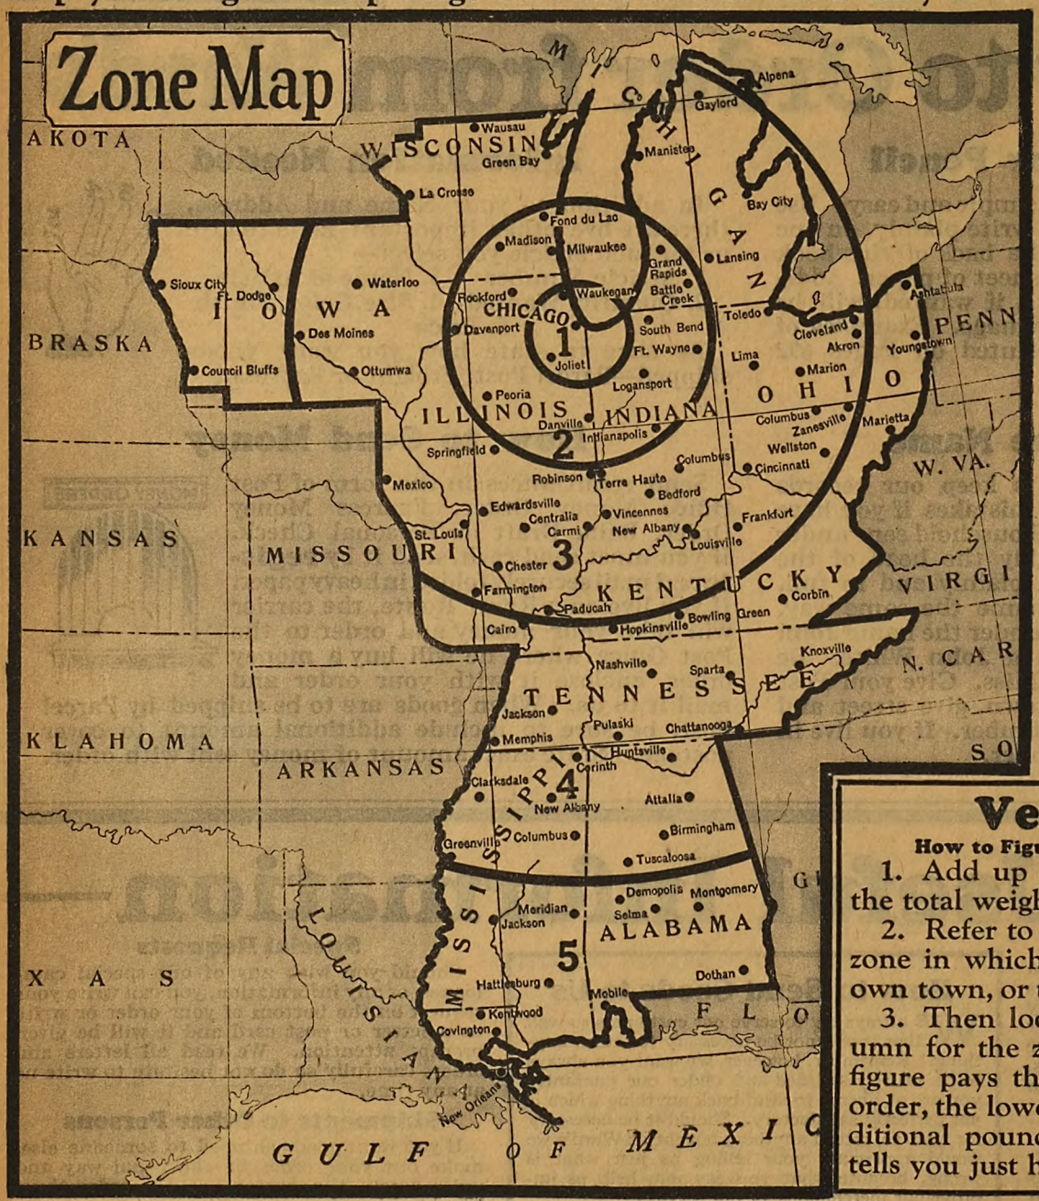
Parcel Post Charges Explained Here

You will find Parcel Post an economical way, as well as a very convenient way, of having most of your orders sent. Parcel Post rates are low; you will be surprised how comparatively little it costs to have your orders sent this way. Deliveries are prompt and frequent; your regular postman will bring your orders to you.

One of the things we do to make it easy for you to order is to include with the description of most small articles, the exact amount of postage required. The directions on this page will help you to figure the postage on other articles. It Is Easy to Order from Ward's.



THE parcel post map at the left shows the territory served by our Chicago House—the circles representing zones. The chart of parcel post rates, below the map, shows the charges to the various zones for packages of any mailable weight. Before writing out your order be sure to read the "How to Order" instructions on Page 329.

Make Out Your Order and Figure the Parcel Post Charges as Follows

Go through this catalogue and make out your order. You will notice in each description we tell you either how much to send for postage or we give you the weight packed for shipment.

To figure the parcel post charges on the articles for which we do not give the postage, read the following simple instructions carefully.

Very Important

How to Figure Postage—Read These Instructions

1. Add up the weights of the articles to find the total weight.
2. Refer to the map on this page and find the zone in which you live—either by locating your own town, or the one nearest shown on the map.
3. Then look in the chart below. In the column for the zone in which you live, the upper figure pays the postage on one pound of your order, the lower figure is the postage for each additional pound. The example under the chart tells you just how to figure it.

U. S. Parcel Post Rates from Chicago

See Map Above for Zone in Which You Live

How Far Do You Live from Chicago .... / What will Your Package Weigh	If you live in Zone 1 Not more than 50 miles from Chicago	If you live in Zone 2 Over 50 miles —not more than 150 miles from Chicago	If you live in Zone 3 Over 150 miles —not more than 300 miles from Chicago	If you live in Zone 4 Over 300 miles —not more than 600 miles from Chicago	If you live in Zone 5 Over 600 miles —not more than 1000 miles from Chicago
For weights 8 oz. to 1 pound, the Postage is	7¢	7¢	8¢	9¢	10¢
For each additional pound or fraction of a pound, add	1¢	1¢	2¢	4¢	6¢

Example If you live in the third zone and order merchandise weighing 10 pounds, the parcel post charge is 8¢ for the first pound and 2¢ for each of the nine additional pounds (18¢) making a total of 26¢.

Postage Weight Limit Packages weighing up to 70 pounds each may be mailed to any post office in Zones 1, 2 and 3. Packages which do not exceed 50 pounds in weight may be mailed to all zones.

Add to the amount you have figured the amounts of postage for the other articles on which we tell you how much to send—and you will have the proper total for postage to include with your remittance.

Packages Weighing Up to 8 Ounces May Be Mailed to All Zones for 1½¢ for Each Two Ounces

How to Figure Postage on Parcels You Want to Mail

TO find the parcel post charges on any package you are mailing from your home to any town within 1000 miles—use the chart at left, locating the proper zone by finding at the top of the column the approximate distance the package is to go. In other words, use the table as though the name of your town were printed there, in place of "Chicago." Then figure the postage as told in the example.

How to Estimate Freight Charges

It is not necessary for you to send money for railroad freight shipping charges if your station has an agent. However, if you want to know what the freight will be on any shipment from Chicago you can easily find it by following carefully the directions on this page.

1. Find whether you live in Western, Eastern or Southern Classification territory. See Table A below.
2. Find how your merchandise is classed, whether 1st, 2nd, 3rd or some other class of freight. See Table B below.
3. Find your city or city nearest you and the rate per hundred pounds to that city. See Table C below.
4. Multiply the rate by the weight of the article given in the catalogue description. You then will have the approximate amount of the freight.

Remember: All rates are for 100 pounds and the railroads charge for 100 pounds on all shipments of less than that weight. Over 100 pounds the charge is for the exact weight of the shipment. If the rate to your town is 60¢ a hundred pounds, and your shipment weighs 65 pounds the freight will be 60¢. But if your shipment weighs 110 pounds, the freight will be 66¢. Therefore, it is to your advantage to build up your order to 100 pounds or more.

Example: Suppose you live in La Crosse, Wisconsin, and want to find the freight charges on a sewing machine. Table A tells you Wisconsin is in Western Classification territory. Table B shows that a sewing machine is first class freight in Western Classification territory. Table C gives the first class rate to La Crosse as 76¢ for 100 pounds. The sewing machine weighs approximately 125 pounds as stated in the catalogue description. Therefore, the freight charges will be one and one-quarter times 76¢, or 95¢.

Freight Charges on Factory Shipments

Many articles we sell, especially heavy or bulky goods, are shipped direct from one of our factories in order to save you handling charges. Therefore when estimating freight charges on factory or warehouse shipments, remember you pay freight charges from point of shipment and not from Chicago. The catalogue description tells you when an article is to be shipped from factory or warehouse. When in doubt about freight charges, write us—we will gladly give you further information.

Table A

Freight Classification

The classification is not the same throughout the country, and classes are given below under three heads.

WESTERN CLASSIFICATION applies to—
Illinois Iowa Missouri Wisconsin

EASTERN CLASSIFICATION applies to—
Indiana Michigan Ohio

SOUTHERN CLASSIFICATION applies to—
Alabama Kentucky Mississippi Tennessee
Louisiana (East of Mississippi River)

Write Us for Exact Freight Charges

We maintain a force of expert freight clerks for your convenience. Write us if you would like to have us figure the freight charges for you on any article you are thinking of buying.

We pack all merchandise so the shipment will cost you the lowest possible amount for transportation charges. Every article is packed to reach you safely.

Adventures in Contentment—David Grayson. His health broken by city life, a young man buys a small farm. In this story, he tells his adventures in the country.
Alice Adams—Booth Tarkington. Amusing story of a small town girl, socially handicapped by lack of money.
Alice of Old Vincennes—Maurice Thompson. The dangers of Indians and privations of pioneering form the background of this love story of the frontier days.
Babbitt—Sinclair Lewis. The story is an amusing account of American middle class life.
Ben Hur—General Lew Wallace. Roman life in the days of Christ, with its pageantry, atmosphere of the arena, galley slaves, sea fights and a most thrilling chariot race.
The Bent Twig—Dorothy Canfield. The "twig" is the daughter of a professor, who fights against family influence, but is restored by an understanding mother.
The Blazed Trail—Stewart Edward White. A dramatic plot and keen love interest make this story one of the finest tales of the West.
Certain Rich Man—William Allen White. How the cruelties of war closed the heart of the boy Johnny Barclay to all but the power of money. His success, the sorrow he brought to others and his final reparation.
The Brimming Cup—Dorothy Canfield. Marsh's admiration for Marise turns to love, although she is married and a mother. Her husband's wisdom solves the problem.
The Call of the Wild—Jack London. The thrilling adventures of a dog, who, as a companion, was nearly human.
Cappy Ricks—Peter B. Kyne. A wealthy old ship owner, father of a charming daughter, always must have his way. Matt Peasley gives him a number of surprises.
Cap'n Eri—Joseph Lincoln. Three old sea captains advertise for a wife for one of their number.
The Crisis—Winston Churchill. War, politics and romance, whose characters are the greatest names in history, make this the finest novel of the Civil War.
The Crossing—Winston Churchill. An historical novel, telling of the pioneer conquest of Kentucky and Tennessee.
Daddy Long Legs—Jean Webster. Jerusha Abbott, reared in an orphan asylum, is sent to college by an unknown trustee. Her humorous, sunny letters to him tell the story.
David Harum—Edward Noyes Westcott. The story of rural New York and a cheery old philosopher who believes there is nothing wholly bad in the world.
Dear Enemy—Jean Webster. Sallie McBride, the superintendent, tells of her "Dear Enemy" and her pet theories concerning orphanages in gay, common sense letters.
Desert Gold—Zane Grey. Mysterious story of the Mexican border and of two men lost on the desert. A dramatic tale of the discovery of gold on the border.
The Right of Way—Gilbert Parker. An unusual love story of a young lawyer of many gifts, who is being ruined by intemperance and an unhappy marriage.
The Riverman—Stewart Edward White. A Michigan riverman and a New York lawyer form a company to handle logs. A love story full of thrills.
The Secret Garden—Frances H. Burnett. A little English girl is sent to an uncle in England. She is bitter until the discovery of a secret garden which inspires her to the magic of love and life.
The Soul of Anne Rutledge—Bernie Babcock. The romance of Abraham Lincoln.
To Have and to Hold—Mary Johnston. The landing of a ship load of comely maidens in Virginia in Colonial days is the basis of this charming love story.
Vandermark's Folly—Herbert Quick. A young lad working on the Erie Canal goes west. He settles in Iowa and participates in that great period of history making.
The Virginian—Owen Wister. A young cowboy falls in love with a Vermont girl of superior education.

DUKE HILL
Manager, Book Department

EVERY year thousands of new books are written and forgotten. But there are books that will live forever; and from the best of these I have selected One Hundred Books Most Worth Reading, and grouped them on this page.

To read such books is an education; and to help you make the most of this opportunity we have had specially printed for you a splendid book to guide you to the very best in good reading. "What Reading Can Do For You," listed below, tells you what to read and how to read it. Know the writers mentioned in this book and you will have a college course in literature.

I want you to have these books in your homes, so I have made special arrangements with the publishers to be able to offer them at special low prices—one-third to one-half less than such books regularly cost.

Gold—Stewart Edward White. A spirited and picturesque account of the mad days of the 'Forty-Niners and four men who form a partnership to the land of gold.
The Harvester—Gene Stratton-Porter. A story of the Limberlost in which the hero is patterned after the life and ideals of the New England naturalist, Thoreau.
The Hoosier Schoolmaster—Edward Eggleston. The story of Indiana backwoods life told in simple Hoosier dialect.
In the Days of Poor Richard—Irving Bacheller. A delightful picture of Ben Franklin, the man, with glimpses of England and America during the Revolutionary War.
The Indian Drum—William MacHarg and Edwin Balmer. A mystery story based on an Indian superstition that a drum hidden on north Lake Michigan tolls the passing of every soul lost on the lake.
The Innocents Abroad—Mark Twain. The gay voyage of "The Quaker City," with her cargo of eager Americans, their pleasant adventures in Europe and the Holy Land.
The Inside of the Cup—Winston Churchill. A New England rector leaves his parish for a fashionable church in a city. His problems make this novel an important contribution on modern questions.
The Iron Puddler—James J. Davis. An interesting record of the rise of a poor Welsh youth from puddler's helper to a member of the cabinet.
Janice Meredith—Paul Leicester Ford. The historic scenes of the American Revolution, together with lovable Janice Meredith, make this one of the most delightful stories.
Just David—Eleanor H. Porter. David is left alone at ten but wins his way into the hearts of New England villagers with his violin.
The Light in the Clearing—Irving Bacheller. An old man writes of his boyhood and youth on a farm in New York during Van Buren's administration.
Main Street—Sinclair Lewis. The story of Gopher Prairie and the story of all America.
A Man for the Ages—Irving Bacheller. A sympathetic story of Lincoln's career from the time he clerked in a country store until his inauguration.
The Mississippi Bubble—Emerson Hough. The famous "Mississippi Bubble" and the panic it created in France is the background of this thrilling tale.
Penrod—Booth Tarkington. A study of a very human boy. An amusing tale of his adventures and his dog and his misunderstandings with his parents.
Prodigal Judge—Vaughn Kester. Judge Slocum Price is an exceedingly disreputable, but vastly entertaining character, in this story of love and mystery.
Rebecca of Sunnybrook Farm—Kate Douglas Wiggin. The story of Rebecca, a laughter inspiring child, full of natural impulses and happiness.
Richard Carvel—Winston Churchill. Maryland in Colonial days with its fascinating hospitality and brilliant history is the setting of this love story.
Eben Holden—Irving Bacheller. A tale of the North Country and forests. A bracing and wholly American story of native town and country life.
Emy Lou—George Madden Martin. The real story of an everyday little girl. Emy Lou is irresistably lovable because she is so absolutely real.
Freckles—Gene Stratton-Porter. A nature story of the famous Limberlost. The romance of a poor youth who has to fight against physical handicaps.
The Gentleman from Indiana—Booth Tarkington. A novel of love, politics and country editor.
A Girl of the Limberlost—Gene Stratton-Porter. The struggle of a girl for an education against opposition put up by a sour, grim mother. The regeneration of her mother and a love affair make this a charming romance.

My Life and Work by Henry Ford

The life story simply and directly told of the great manufacturer of agricultural machinery, who, starting more than sixty years ago as a poor boy without influence worked his way up through many temporary reverses to be not only a master of millions, but one of the greatest personalities in the business life of America. Here he tells for the first time the story of his battle for an ideal. He tells not only the how but the why of his success. He says that this is the day of achievement—that never has the opportunity to advance been as great as it is now. And he lays down simple, easily understood rules which any of us can apply to his own ambitions. A book that will help thousands of people to a broader understanding of life and inspiration to greater things. Has been a best seller all over the world and **thousands have been sold for $3.50.** Because of the great value and desirability of this book to every man in every line of work we have bought a large quantity which enables us to make this low price offer. 87¢ Children Love These Stories

Most Complete Edition

No nursery is complete without one of these wonderful books—the funniest, jolliest and most pleasing Mother Goose you ever saw. Unusually complete in its contents. It has all the well known rhymes and hundreds of amusing Mother Goose jingles not found in other American books. And all the clever illustrations that Mr. Donahey has drawn will make the kiddies shout with glee.

Even the tiniest boys and girls who do not yet know their A B C's will be amused with these pictures and will love to have the rhymes read to them. This book is printed on good quality paper in clear type and has 700 rhymes and jingles. More than a hundred pictures including 12 full color pages. Well bound in cloth. Size, 8⅛ by 11 inches; 119 pages.

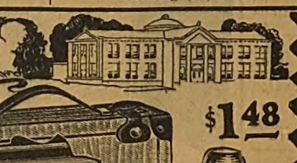
Neat Compact School Lunch Kit



With Vacuum Bottle

$1.48

A handy Lunch Kit like this will find many uses in every home. Especially suitable for school children and workingmen who carry lunches daily. Kit may be used without bottle, making room for lunch; and the bottle itself, which will keep liquids hot or cold for many hours, will often times be used alone.

The kit is well constructed of metal, finished to resemble leather. Made in convenient suitcase style, in two compartments—the lower for lunch and the upper for pint vacuum bottle which is included. Case has strong leather handle and cover clasps. Bottle has handy drinking cup with detachable handle. Size of kit closed, 10½ by 7 by 3 inches.

Nationally Advertised

Genuine Bye-Lo Babies

THE original "New-Born Baby Doll." Nationally advertised in all the leading magazines. Grace Storey Putman, the sculptress, spent weeks in a maternity hospital painstakingly studying and modeling head after head until finally her patience was rewarded by this wee little head which has all of the charm of the tiny baby so dear to the heart of every woman. That head is now known the world over as the Bye-Lo Baby Doll.

Nothing has been omitted, from the soft spot indicated on the top of the head to its little snub nose. Just the suggestion of eye brows above its tiny blue eyes that open and close. A shadow of a smile lurks in the corners of the appealing little mouth. Little wrinkled hands with tiny pink fingers. The body is soft and cuddly with its little legs curved. The head can be turned to nestle in the hollow of your arm. Dressed in a long sheer white lawn dress, lace trimmed; long slip; soft underwear, and waterproof rubber diaper. The Bye-Lo Baby has a crying voice.

The Genuine Bye-Lo Baby is sold by no other mail order house. No other doll of similar appearance even approaches it either in quality or in its lifelike appeal. Do not risk disappointing your little girl on Christmas morning. Order from Ward's and be sure you get the genuine Bye-Lo Baby. Compare it with any baby doll, at any price, and if you are not entirely satisfied, we will gladly refund your money and all postage charges which you may have paid.

Rose Marie Our Most Beautiful Doll

Genuine Effanbee Doll

$6.48 18 Inches Tall

THE most beautiful Ma-Ma Doll produced this year. A little princess with dancing eyes and natural childlike expression. Dimpled cheeks and half open rosebud lips showing the tip of her little pink tongue and pearly teeth. She seems to be almost living, breathing. Go-to-sleep eyes and curls of genuine human hair which may be combed.

Six Photographs of Rose Marie Included

Rose Marie is such a beautiful little lady that we had some photographs made and every little girl that takes her into her home this year receives six photographs for her friends.

Rose Marie is made in the famous Effanbee factory where only the finest materials and workmanship are used. Every doll is perfect. Almost unbreakable composition head with sleeping eyes. Real eye lashes. Her composition arms have ball and socket joints at the shoulders; they may be moved in any position. Composition legs with dimpled knees. Body stuffed with finest cotton. She walks and dances beautifully if you lead her.

Dress of beautiful pink and white lace effect material; short sleeves show her pretty arms. Matching underskirt and and little panties. Pink leatherette shoes and pink and white mercerized stockings that come off.

Heart shaped Effanbee locket and chain with each doll.

We have Rose Marie in four sizes so that every little girl can have just the size she wants. Sold by no other Mail Order House. The Doll Buggies listed below are appropriate for Rose Marie.

Real "Ma Ma" Dollies for Little Mothers

Things to Consider When Buying Dolls

When buying a Doll consider the following points:
Wig. Real hair or mohair?
Arms. Composition and jointed at the shoulders?
Legs. Composition or only stuffed?
Body. Is it cotton stuffed?
Eyes. Go-to-sleep eyes and eyelashes?
Open mouth with teeth and tongue showing is found only in better dolls.

$2.48 Blue Bonnet Dolly
Walks and Talks
20½ Inches Tall

Blue Bonnet is a pretty little golden haired Ma-Ma Doll with a soft powder blue voile dress. But Blue Bonnet herself is really much lovelier than her picture, because she has the prettiest pink cheeks and wears the sweetest ruffled dress and bonnet you ever saw. Her bloomers are blue too, and she wears little half socks and black slippers. She is a real Ma-Ma doll. Blue Bonnet can walk too, if you just hold her hands to guide her steps. And she is almost unbreakable. Her head, legs and arms are of strong composition, very hard to break. Pretty dimpled knees and mohair wig. Her plump little body is made of stout cloth, firmly stuffed.

Toys That Amuse And Instruct

Educational Blackboard

Complete **$4.98**

A combination Blackboard, Educational Chart and Study Desk. A necessity for young children. Made of fine seasoned oak, finished golden and handsomely varnished. Height, 46 inches; width, 21½ inches. The blackboard is the famous Lithoplate used in schools in many cities and is the equal of slate.

54-Charts

Fifty-four charts compose the scroll which may be rolled back and forth. These charts were compiled by specialists in kindergarten work. The subjects were selected to interest and instruct the child. Eight of these are printed in gorgeous colors.

The blackboard is hinged and may be let down, forming a splendid desk for writing and studying. Pigeon holes for tablets, pictures, crayons, pencils and all the childish treasures that demand a secret and secure place. With this blackboard we send you a blackboard eraser, just like the one used in school. Also a box of colored crayons. When not in use, this board may be folded and placed behind a door or in a closet, as it is only 5 inches thick when folded. The children will keep their books and pencils neatly put away if they have a definite place to put them. Shipping weight, per set, 30 pounds. Can be shipped by freight or express only.

Ward's Shooting Star

SHOOTING STAR

$2.98 Largest Size

Single Bar Model

The Sled That Is So Easy to Steer

Down the gleaming white track it comes, straight as an arrow, swift as a flash. Swish! It's gone—past every other sled on the hill. The "fellows" know that the Shooting Star goes faster and farther than any other sled. That is why every boy wants to own a Shooting Star flexible speedster.

It is the easiest sled of all to steer, for the flexible front responds instantly to your hand, or foot, on the steering bar. It is very light, but very strong, good for season after season of coasting.

The top is made of specially selected hardwood, natural finish spar varnished and decorated in colors. Runners are tempered T shape steel, just the right width for greatest speed. Extra strong knee braces are riveted (not welded) to the runners and to wood bolsters underneath the bed. The 30 and 36-inch sizes can be shipped by parcel post.

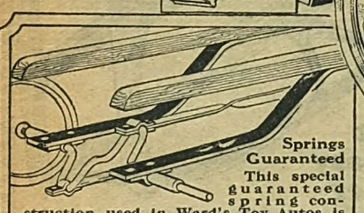
Works and Rides Like a Real Packard



Springs Guaranteed

This special guaranteed spring construction used in Ward's Toy Autos is the result of months of experimenting. These perfected springs positively absorb the bumps and jars just like shock absorbers on Dad's car. Even with this unusual feature, Ward's toy autos cost less.

Nothing has been omitted that would in any way add to the beauty and durability of this Packard Toy Auto. Every detail of construction and finish has been handled with greatest care. A car such as the youthful motorist has always wanted for his very own.

See How Well This Car Is Made

Heavy gauge sheet steel body on strong wood frame, steel undergear. Equipped with special **cushion springs**, guaranteed to hold 100 pounds. Put together with **bolts**—no screws or nails that work loose. Finest finish on all parts of this car, including undergearing. Two coats of **auto enamel** applied with an air brush and **baked on.** Hood seat and wheels are handsome red enamel with black and yellow stripings. Fender and undergear black enamel. Genuine nickel plated trimmings. The 10½-inch double disc **roller bearing** wheels have 1-inch rubber tires and nickel plated hub caps. Two-piece adjustable wind shield with side wings, of transparent celluloid, nickel plated frame. Wind shield wiper and spot light. Crown fenders with lined step board with nickel plated metal frame. Diamond shape steel front bumper. Rear view mirror on front fender.

Knuckle type front axle for easy steering. Trunk in rear, 12 by 3¾ by 5½ inches and contains a case of tools including a hammer, pliers, wrench and screw driver. Other special points are shown in the picture. Entire length, 43 inches; width, 20 inches. Height to top of windshield, 28½ inches. Length from center of seat to pedal when at farthest point, 17 inches. For children from 4 to 9 years. Shipping weight, 60 pounds.

$4.79 Ball Bearing Double Disc Steel Wheels Forward Coaster—Made in Our Own Factory

The Forward Coaster Wagon is made by us in our own factory. You pay no more for this wagon of finest materials and construction than it costs some factories to manufacture wagons of less sturdy construction. Only one small profit is added to actual factory cost.

This handsome Forward Coaster Wagon is a typical example of the savings you can make by ordering from Montgomery Ward & Co. It is made by us in our own factory—that is one reason why you get such high quality at such a moderate price.

The body is 16 by 36 inches and made of hardwood, smoothly varnished in natural color. Top and edges painted a bright red. Under trusses, front and rear, are made of U shaped channel steel, ¾ inch wide and ⅜ inch deep with the channel on the inside of the curve. Axles are made of ½-inch steel bars. Double disc steel wheels 10 inches in diameter are equipped with hardened steel ball bearings encased in hardened ball races that will not wear out. Wheels are enameled red.

The ¾-inch corrugated rubber tires have been sprung onto rims under great pressure and will not skid off. Steel brake with wood spool. Shipped taken apart; easily assembled. Shipping weight, 38 pounds. Can be shipped by parcel post.

Boncilla Clasmic Beautifier
Beauty Clay is a real aid to a beautiful skin. Widely advertised and very popular with women who take good care of their complexions. Applied to the skin, allowed to dry and removed with cold water. The results are very satisfactory. Leaves the skin beautiful and with good color. Mothers and daughters alike use clay pack method to improve the texture of the skin as it lifts out the lines, will also remove pimples, blackheads, and tone up the facial muscles. Prevents the skin from becoming darker as one grows older. Cleanses and closes the enlarged pores.

THOS. F. CONNELL, Manager, Jewelry Department

Buying jewelry is largely a matter of confidence. It is impossible to look at any article and tell whether it is made of 18-Karat gold or 10-Karat gold. All you can do is accept the seller's statement as being true; and you always feel more secure when you deal with a concern in which you have full confidence.

When you buy jewelry from Ward's you buy from a house with a reputation for 53 years of fair dealing. Our printed statement is our word of honor. When we tell you that a ring is 18-Karat gold, or a watch case is 14-Karat gold filled 25-year quality, you can depend upon it. Everything is exactly as described in these pages. Best of all, you save money and have the advantage of shopping from our big catalogue during spare time, in your own home where the whole family can aid in the selection.

High Quality—Low Prices

We have a rule that quality is never sacrificed just for the sake of making a low price. No matter what you pay for the jewelry you select from these pages, you can be certain that you are getting full value for every dollar you spend. You not only save money at Ward's, but you know that you will be satisfied with any purchase you make; because our policy of Satisfaction Guaranteed or Your Money Back protects you in every way.

You Have 60 Days to Examine Diamond

Our special guarantee allows you 60 days to examine your diamond. If for any reason you decide to return it within 60 days of date of purchase, we will promptly refund the price you have paid.

Money Refunded Within One Year

At any time within one year from the date of purchase, we will refund the full purchase price less 10 per cent. For example: On a purchase of $100 we will refund $90 at any time within one year, if so desired.

Full Value in Exchange

Within one year from purchase date, we allow the full price you paid in exchange for a more expensive diamond. Through our exchange plan many customers in time are able to own much larger diamonds.

Whether you buy our First, Second or Third quality, you will receive full value for the amount you paid. Each quality represents unusual value at our prices. We believe our prices are much lower than those charged elsewhere for diamonds of equal quality. Our written guarantee pictured on this page is sent to you with every diamond. It fully protects you.

Ward's Guarantee

You are protected when you buy Diamonds from Montgomery Ward & Co., as you know they are genuine, exactly as represented and will reach you safely. Our guarantee stands now as always "Satisfaction or Your Money Back." In addition, every diamond is accompanied by Ward's written Special Diamond Guarantee. Only selected quality diamonds, perfectly cut, are permitted to enter our stocks. Our experts go to the diamond centers of Europe, Antwerp and Amsterdam, and personally select our diamonds. They take into consideration every point that determines the value of a diamond. And every stone must come up to Ward's high standard or we do not consider it good enough to offer our customers.

Our First Quality

Our First quality diamonds are carefully selected and are of blue white color. Perfectly cut and wonderfully brilliant. Any one would be proud to own diamonds of such splendid quality.

Our Second Quality

Our Second quality is only slightly different from our First quality. The color is just as good but the cutting is not quite as fine. They represent special value at our low prices.

Our Third Quality

Our Third quality is not quite as good as our other qualities, but is free from objectionable flaws. There is nothing about the color or cutting which interferes with the brilliancy.

Delivery Guaranteed

If there is an express office at your station, we recommend that you order your diamonds to be shipped by express. When diamonds are to be sent by mail, add 5¢ for postage. We guarantee safe delivery.

We Guarantee Each Watch

The United States Federal Trade Commission recently ruled against stamping of time guarantees on watch cases. Hereafter, watch cases will be stamped 10-K Gold Filled (formerly 20-year quality), or 14-K Gold Filled (formerly 25-year quality). A written guarantee fully covering this time guarantee is sent with each watch. Each watch is enclosed in a handsome leatherette gift case lined with velvet and satin.

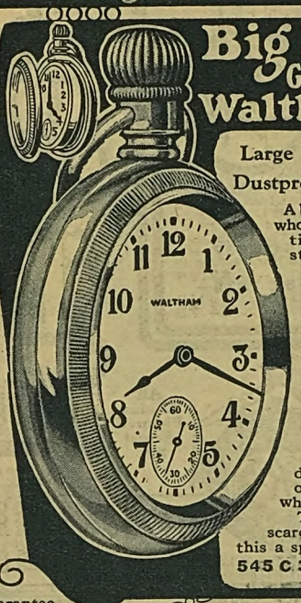
Big Bargain Genuine Waltham $18.45

Large 18-Size — 17 Jewels

Dustproof and Moistureproof



A big favorite Watch with men who want a sturdy and accurate timepiece in a large and substantial case. The 17-Jewel adjusted P. S. Bartlett, Waltham movement, is nationally known for its excellent timekeeping qualities.

The extra heavy 3-ounce silverine (nickel alloy) case is a swing ring model with solid back and screw front. This style is practically dustproof and moistureproof as the movement fits in a hinged ring that swings down into the case. There is only one opening, the front, which screws down tight.

These fine watches are very scarce, and our low price makes this a splendid value.

Riverside Fountain Pens
Unbreakable Pyralin

Something New!
Fountain Pens
Made with Barrels and Caps of
Unbreakable Pyralin
Manufactured by
Du Pont Viscoloid Company

Pyralin is a beautiful new material, something like extra heavy celluloid. It is light in weight, practically unbreakable and comes in a variety of beautiful colors. It is already widely used for "Ivorette" combs, mirror backs and similar articles. It has been in great demand for making the barrels and caps of the highest priced fountain pens. Montgomery Ward & Co. is first to offer it to you on pens selling at such low prices.

Riverside

Only at Ward's Can You Buy Pyralin Pens at These Low Prices

In this catalogue we are introducing Riverside Fountain Pens in the new unbreakable Pyralin barrels and caps which until now could be obtained only in pens selling from $5 to $10. All pens have a smooth writing, 14-karat solid gold iridium tipped point of lasting durability. Only at Ward's can you buy Pyralin Pens at these low prices.

How to Order

Correct Ring Sizes

If you have a Ring or can borrow one that fits your finger, place it over the circles until you find one the exact size of ring inside. The number in the circle denotes your finger size. If ring falls between two sizes, order the larger size. Another way is to wrap a string or narrow strip of paper snugly around largest part of finger. Cut off so the ends just meet. Place on the gauge below so one end just covers the black line at point "A" the figure at the other end is your finger size. You also may order Ward's rings from any ring card or gauge. See general ordering instructions on Page 329.

Will Give Years of Satisfaction

This Silverware is made by two nationally known manufacturers. The Webster and Aladdin patterns by Simeon L. & Geo. Rogers; the Ashland pattern by Wm. Rogers. A special process of plating is used in the manufacture of this tableware, whereby an extra layer of solid silver is added on the parts that are exposed to the hardest wear. This is in addition to the heavy silver plating that covers the entire article, assuring unusually long life. All Rogers silverware is guaranteed and we will replace any piece that proves not satisfactory. In three popular patterns shown above we picture two styles of engraving. The script lettering shown on the Aladdin and Webster patterns we can engrave at 3¢ per letter, and the Old English shown on the Ashland pattern at 5¢ per letter. Solid handle knives are too hard to engrave.

Ivorette Gift Sets Priced Low

For Milady's Dressing Table

To please her with a gift worth while, what can be more appropriate than a beautiful Ivorette Toilet Set? The beautiful toilet articles shown on this page are of a quality that every woman would be proud to place on her dressing table. They have been selected for their handsome style, their beautiful finish and their remarkable value.

The mirrors, hair brushes and military brushes shown on this page are made in filled Ivorette, commonly known as French Ivory. Filled Ivorette means two pieces of solid Ivorette are carefully molded together and filled with composition, making a very substantial construction. Each set is artistically arranged and packed in pretty gift case.

Initials Beautifully Inlaid in Blue Where Shown

Beautiful initials, hand engraved and inlaid in pleasing contrasting blue add much to the beauty of Ivorette. All mirrors and the pieces shown with initials are the best suited for initials. We do not recommend putting initials on the other pieces.

A Gift of Lasting Beauty—Ivorette

The Charm of Ivorette

The dainty sets and most of the individual pieces shown on this page are made of solid Ivorette, a delicately grained, ivory tinted celluloid, also known as French Ivory. There are sets and pieces in solid white throughout, others in a two-tone effect, having an ivorette body edged with amber, or mother of pearl effect with amber colored edges and front. Those listed as solid Ivorette are solid throughout, with no substitute filling of any kind. Its smooth surface is very attractive and is easily kept clean. Solid Ivorette will wear indefinitely and retain its lovely appearance.

Initials Beautifully Inlaid in Blue Where Shown

Beautiful initials, hand engraved and inlaid in pleasing contrasting blue add much to the beauty of Ivorette. All mirrors and the pieces shown with initials are the pieces best suited for initials. We do not recommend putting initials on the other pieces.

Initials Are 25¢ Extra for Each Initial

Cuckoo Clocks

The Cuckoo Clocks shown below are imported from the great clock making region in the Black Forest of Germany, where the art of fine clock making and carving has been handed down from generation to generation. The front carving is all handwork, and the designs are the latest and best we could select. The movements are carefully constructed and thoroughly adjusted before packing. These clocks are operated by weights and keep good time.

You will find that each one of these cuckoo clocks represents an unusual value at our price.

$15.75 Quail and Cuckoo Clock

Our combination Quail and Cuckoo Clock. Beautiful hand carved design. Walnut finish. At the stroke of the gong the cuckoo calls the hour. At 15 minutes past the hour, quail appears and calls once; 30 minutes past, calls twice, and 45 minutes past, calls three times. Just before the cuckoo calls the hour, the quail appears and calls four times. Size, 18 inches wide and 24½ inches from extreme top to bottom. Dial, 6 inches in diameter with white imitation ivory hands. Weights are of cast iron, enameled and bronzed. Shipping weight, 28 pounds.

446 C 1279.....**$15.75**

$10.25 Cuckoo Wall Clock

One of our best values in an Imported Cuckoo Clock. Front carving is all handwork and has a dark walnut finish. The movement is carefully constructed and will give long and satisfactory service. Each clock is inspected and adjusted before packing so it reaches you in perfect time keeping condition. Strikes the hours and half hours on a wire gong. At stroke of gong the cuckoo appears at door above the dial and calls the hour. Width, 15 inches; height, 20½ inches. Has 4¼-inch dark dial with white numerals and hands. Shipping weight, 17 pounds.

446 C 1278.....**$10.25**

$5.25 Carved Cuckoo Wall Clock

Seldom is such a bargain offered in a high quality and mechanically correct Cuckoo Clock. It is imported direct from one of the largest factories in Europe and is made with all the skilled workmanship for which they are noted. It is handsomely carved and has a beautiful Walnut finish. Strikes on the hour and half hour on wire gong. At the stroke of the gong the small door above the dial opens and the cuckoo comes out and calls in a very pleasing tone. Height, 11½ inches; width, 9 inches. Dial is 3 inches in diameter. White numerals and hands. Bronzed weights. Shipping weight, 8 pounds.

Ward's "Old Reliable" Best 8-Day Alarm Clock

Built to Last for Years

Do not confuse this fine big Clock with the ordinary alarm clock of similar appearance that has to be wound every day. Ward's "Old Reliable" is a high grade eight-day clock made by one of the foremost American clock manufacturers, a concern that has been making fine clocks for over 100 years.

A Clock of this High Quality Usually Sells for 2 or 3 More

Ward's low prices for these high grade 8-day alarm clocks are actually less than most dealers pay wholesale for clocks of the same high quality. We buy direct from the manufacturer in large quantities at a special low price. We do not believe you can buy clocks of this quality anywhere else at the prices we ask for the two styles described.

$2.50 Plain Dial

Calls You When You Want to Be Called

$3.25 Luminous Dial

Wind Only Once a Week—Plain or Luminous Dial

You will appreciate the convenience of having to wind this clock only once a week. After one winding it will keep accurate time for eight days, and awaken you daily at any time you wish. The dial is 4½ inches in diameter and has large plain figures on a white face, easily readable at a considerable distance. For those who like to see the time in the dark, Ward's "Old Reliable" is also made with black face and luminous figures and hands. The heavily nickeled brass case is highly polished and is 7 inches from base to top of ring. The bell gives a loud clear alarm, which can be stopped by pressing the button on top. The winding keys are big and strong.

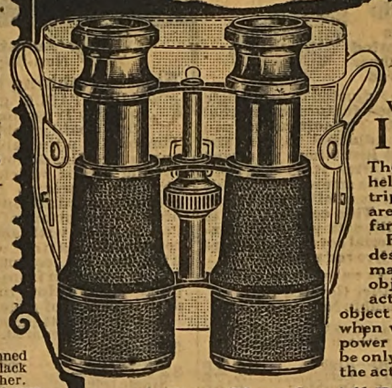
3½ Power



You See Farther with These Glasses

IF you have ever used a good Field Glass or Binocular, you will want to own one. Those offered on this page will help make your vacations and trips more enjoyable. They are also particularly useful to farmers and ranchers.

Field Glasses or Binoculars described as 5-power, or as magnifying 5 times, will make objects appear one-fifth the actual distance. Example: An object five miles distant, when viewed through a 5-power glass, will appear to be only one mile or one-fifth the actual distance away.

A Fine Glass for All Round Use

Brings distant objects right up before you. Every hunter of large or small game should have a pair. Just the thing for races and sports of all kinds. The finely ground lenses assure clear vision. Sanitary Goods at Lowest Prices

Spirit of Progress Brand

Seamless Molded in One Piece

We think so well of these rubber goods that we have placed on them our own trade mark, the "Spirit of Progress." Best quality possible at moderate cost. Will outlast rubber goods selling at double our price. Made under a special contract by the Miller Rubber Company of Akron, Ohio. Molded in one piece, by the latest manufacturing methods. This eliminates seams or bindings and removes the possibility of seams leaking.

The "C-Kure Neck" is a feature which prevents leakage around the stopper. The socket into which stopper screws is firmly embedded in the rubber.

These Hospital-Tested Miller Bottles and Syringes are in constant use in leading hospitals. They are withstanding the hardest test of service.

Scientifically made by skilled workmen. The tough red rubber is soft and pliable and will give long service. All pieces are over capacity.

Combination Syringe and Hot Water Bottle

Made extra strong where the greatest strains come. Plug socket molded in all edges well reinforced.

Nowhere Else Can You Find Such a Value

A big contract made months ago when raw rubber was much cheaper than now, makes it possible for us to sell this fine Combination Syringe and Hot Water Bottle for less than we would be able to buy it at wholesale.

Made of live, red rubber. Each bag is guaranteed to be first quality and new stock. Molded in one piece, you will find no seams to spread and leak. Serving a double purpose, the combination is more in demand every day. We do not believe that you can duplicate this quality for anything like our low price.

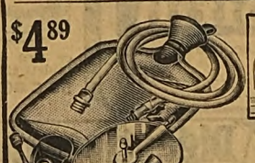
53 C 5006—Complete.....$1.69

Postage, 10¢ extra

Included are one bent vaginal, one rectal and one infant attachment; 5 feet of ¼-inch tubing, nickeled shut off and hot water bottle plug.

You Get the Benefit of This Fortunate Purchase

When we bought our stocks of Rubber Goods for this page, the rubber market was down. Since then it has advanced greatly, but we have made no increase in our prices. You can get the benefit of our fortunate purchase. We absolutely guarantee the quality. You can not duplicate these values elsewhere.



Tube Type

Tube type of Internal Bath Syringe made of strong, live, red rubber. Capacity 2 quarts. May also be used as fountain syringe, or hot water bottle. Attachments include, infants' and adults' rectal pipes, vaginal pipe and five feet of live red rubber tubing, for use as fountain syringe. Also hot water bottle screw cork and metal shut off.

Pure Drugs

Made for us by America's Foremost Pharmaceutical House

Your Guarantee of Purity

The Wardgrade Label on Drugs you buy from Montgomery Ward & Co. is an absolute guarantee of their purity. It means that all the ingredients used have passed careful laboratory tests and analysis. A graduate pharmacist of high professional standing supervises every step in the compounding of our drugs. We do not believe you can buy drugs and remedies anywhere of more consistently high quality than we sell.

Many of our formulas have been prescribed by physicians for years. All compounded scientifically into doses that have proved to be most effective. Sanitary containers give additional assurance of purity.

The Wardgrade Label means economy where quality is considered. Our prices are very low. We buy and sell in such large quantities that we are able to give you prices far below those asked by most retailers.

Watkin's Mulsified Cocoanut Oil Shampoo

Leaves the Hair Soft and Beautiful After Washing **39¢**

Women everywhere know the fine cleansing properties of Watkin's Mulsified Cocoanut Oil Shampoo. It has earned the stamp of their approval because they know that it leaves their hair soft and lustrous—that it brings out the natural color, and gives it an added silk-like luster. It thoroughly cleanses the scalp and hair, and stimulates natural, normal hair growth and health.

An Economical Shampoo

Two or three tablespoonsful make a delightful shampoo. Simply moisten the hair and scalp, rub the shampoo in until you have a rich creamy lather, which cleanses thoroughly, and is easily rinsed out. The hair will be soft and lustrous, without the "wiry" appearance so many soaps cause.

EARNWAY EDWARDS
Manager, Sporting Goods Department.

THE true sportsman who is at home in the woods, the fields and the great outdoors, demands dependable and trustworthy equipment. He wants an accurate, hard hitting gun, reliable shells that bring down the game, sturdy hunting clothing that will protect him in all kinds of weather, and a tent that will stand the wind and rain. He knows there is no substitute for quality—that inferior equipment is not a bargain at any price.

In choosing our line of Sporting Goods, we have insisted that every article should meet the sportsman's high standard of quality. We do not take any manufacturer's word for what his goods will do. We test them ourselves under the same conditions the sportsman will find. Only such equipment as meets our severe tests is offered to our sportsmen friends. We place tremendous orders months ahead so the factories can be kept running at full capacity during the dull season. That is one reason for Ward's low prices.

As an example of our big values notice our Western Field Repeating Shotgun shown at the right. This is a quality gun made especially for Ward's by a well known manufacturer and offered at an unheard of low price. The Western Field Double Barrel Shotgun shown on the following page is another similar bargain. Our special Red Head Shells are known and used by hunters and trapshooters everywhere. By actual test they have excelled other widely advertised brands, both in penetration and pattern. We unreservedly guarantee our Western Field Guns and Red Head Shells to give you perfect satisfaction.

On our Athletic Goods, our Marathon trade-mark always assures you of fine quality at lowest prices. Remember, too, that all our merchandise carries Ward's well known guarantee of Satisfaction or Your Money Back. Write, telling us of your requirements, and we shall be glad to suggest to you the equipment our experience teaches us you could use to best advantage.

Western Field REPEATING SHOTGUN

Sportsmen Who Know Browning Designs and Mechanism Will Appreciate This Big Value

REALIZING the demand among sportsmen for a fine quality Repeating Shotgun at a moderate price, we had one of the largest and best known gun manufacturers make this model. It is now made especially for Ward's and we have given it our own name—Western Field. We heartily recommend it to sportsmen everywhere as the greatest repeating shotgun value ever offered. The design and mechanism are outstanding examples of the genius of John Browning, the inventor of the most successful repeating, automatic and machine guns in use today. Features that you would expect to find in the highest priced guns are included in the Western Field. Nothing has been omitted that would in any way make it more dependable and accurate for field use. Not until you actually examine this gun yourself, can you fully realize its ease of operation, its fine finish, its remarkable shooting qualities and its exceptional value.

$34.50

Simple to Operate

The easiest takedown we have ever seen on a gun of this type. May be taken apart or put together in less than half a minute. Simply unscrew magazine and slide gun apart. Nothing complicated—you can take gun apart easily and quickly the first time you try it.

Six Shots Quick When You Want Them. Holds six shells—one in the barrel and five in the magazine. **Receiver:** Drop forged solid breech. **Barrel:** Of high pressure compressed steel bored for black or smokeless powder. For any shell up to 2¾ inches long. Highly polished and blued. **Stock:** Walnut, highly polished and checkered. Pistol grip. Checkered slide handle. Rubber butt plate. Length, 13¾ inches; drop, 2⅝ inches. **Action:** Hammerless. Visible locking bolt. Safety firing pin. Independent safety. Side ejector type.

Safe and Convenient to Use

The few parts used in the Western Field Repeating Shotgun makes it smooth and easy to operate. No complicated mechanism to get out of order. Less than half a minute's time is required to take it down or put it together. Its action is the smoothest of any repeating shotgun we have ever seen, regardless of price. The breech bolt travels backward and forward on a straight line with a minimum of friction. Shells do not clog—no time is lost when every second counts. No more will game get away because you have to stop and reload after one or two shots. You can have six shots quick when you want them. If you have never before used a repeating shotgun you will be surprised what a difference it makes in the size of your bag after a day's shooting.

All parts are large and extra strong, insuring a lifetime of service and reducing breakage to a minimum. In actual test one of these guns was fired over 100,000 times with heavily loaded shells and finished in perfect working order.

Its Smooth Action is Guaranteed to be Unequalled by any Repeating Shotgun Made

The Western Field repeating shotgun is designed for greatest safety. The solid breech gives a thick wall of steel behind the locked breech bolt, thoroughly protecting the shooter. The breech bolt is locked with a large square lug through block and top of frame forming the strongest lock used on any repeating shotgun and capable of withstanding the heaviest loads. Another safety feature is the screwdown lock on the takedown device which insures the barrel is tightly locked on the frame, making it impossible to discharge this gun before it is closed and locked. The safety trigger lock conveniently placed inside the trigger guard is in easy reach and permits you to keep the firing mechanism securely locked until gun is placed at shoulder ready to fire. The barrel is bored with greatest care and reamed by a slow process giving it exceptionally fine shooting qualities. The barrel and frame are highly polished and blued to prevent glare from the sun. The pistol grip stock and the slide handle are carefully proportioned and checkered to give a sure, firm grip.

This is a quality gun throughout and one any hunter may well be proud to own. After giving it a thorough trial you will say you have never seen a better repeating shotgun, yet Ward's low price brings it easily within the means of every hunter and sportsman. Actual weight, about 7¾ pounds. Shipping weight, 12 pounds. Can be shipped by parcel post.

Western Field HAMMERLESS SHOTGUN

$22.45

OLD experienced hunters who favor the double barrel models, will approve enthusiastically the high quality and workmanship of this shotgun. We have had the Western Field Double Barrel Shotgun made especially for us by one of the largest and best known manufacturers of shotguns in the U. S. We guarantee its design and mechanism are the best it is possible to use in a gun of this type. We do not believe that a better shooting, harder hitting, more accurate gun can be built. The only difference between it and those selling for $25 to $30 more is the engraving and ornamentation of the latter which do not help the shooting qualities in the least. We gave the manufacturer such a big order that we got this gun way below the usual factory price. We added only one small profit and here is the result—the greatest double barrel shotgun value of the year. We unqualifiedly guarantee the Western Field Guns to give you satisfaction.

All the Features a Quality Gun Should Have

Easily taken apart. Snap fore end has metal joint.

Barrels. Bored for smokeless or black powder. Thick breech with cross bolt through extension rib. Matted rib full length of barrels. Left barrel, full choke; right barrel modified choke. Barrel and lug are one piece forged from solid steel.

Stock and Fore End. Good, black walnut. Stock is fastened to frame with a draw bolt running up through grip of stock.

Frame and Action. Strong drop forgings, casehardened. Top lever and bolt in one piece. Non-breakable coil springs. Rebounding locks. Automatic safety slide. Large powerful extractors.

For Field or Trap Shooting

Takedown Model

Experienced Hunters Have Long Been Waiting For a Value Like This

You will find many exclusive features in the Western Field Shotgun that are decidedly unusual in a shotgun selling at anywhere near our low price. The careful, precise machining of the frame and barrel and the smooth working action insure reliable performance even after many years of shooting. The barrel is bored by an exclusive process which gives it deadly accuracy. Even after years of hard usage you can depend on it for sure, quick hitting. The more you use it the more you will admire its splendid, dependable performance in the field or at the traps. You will be delighted, too, with its handsome appearance. Rounded corners on frame, polished barrels and finely checkered stock and forearm. Shoots any standard factory load shell.

Compare the Quality—Compare the Price

Order the Western Field today and make a thorough comparison with any other double barrel shotgun made, regardless of name or price. Compare the workmanship, the finish, the shooting qualities—make any comparison you wish. You will then fully appreciate this great value. Can be shipped by parcel post.

How to Choose the Proper Rifle

It is easy to choose the Rifle suited for the game you are going after. The .30-.30, .32 Winchester Special and .303 caliber Rifles deliver a blow powerful enough to drop big game like deer, bear, etc. Smaller calibers—.25-.20, .32-.20, .38-WCF, .44-WCF—are for fox, wolf, etc. Reference table shows relative strength when used with smokeless cartridges.

Caliber	Range Accuracy	Wt. Bullet	Muzzle Vel.
.25-.20	100 to 200 yds.	86 grains	1380 ft. a sec.
.32-.20	100 to 150 yds.	100 grains	1580 ft. a sec.
.38 WCF	150 to 200 yds.	180 grains	1330 ft. a sec.
.44 WCF	150 to 200 yds.	200 grains	1300 ft. a sec.
.30-.30	500 to 700 yds.	170 grains	2020 ft. a sec.
.32 WS	500 to 700 yds.	170 grains	2110 ft. a sec.
.303 SAV	500 to 700 yds.	182 grains	1990 ft. a sec.

Winchester Model 53

A great favorite among sportsmen. A solid frame, 6-shot Repeater with the same smooth, quick action as the celebrated Model 1892 Winchester Rifle. The finger lever action cocks the hammer easily, ejects the shell, replacing it with a cartridge from the chamber. The breech bolt, operated by the lever action, is automatically locked by a vertically moving block, which shows on top of gun when closed. At the same time, the firing pin is automatically withdrawn and the trigger locked until the parts are in firing position again. **Barrel.** 22-inch; nickel steel, round and tapered. **Frame.** Solid steel, blued. **Sights.** Lyman gold bead front and adjustable sporting rear sight. Shotgun butt stock and fore end, genuine walnut. Steel butt plate. Shipping weight, 9 pounds.

RED HEAD Shoot Hard Make Better Patterns

Why Red Head Shells Cost You Less

BY KEEPING a factory busy twelve months out of the year making RED HEAD Shells, Ward's has reduced manufacturing costs until it is possible for us to offer you **standard quality** shells far below what you would usually have to pay. The low price you pay for RED HEAD Shells is only slightly above the cost of manufacturing them in enormous quantities. It is easy to see why you can get shells from Ward's for so much less than the usual retail prices you are asked to pay which include several profits and expenses which do not make the shells any better. RED HEAD Shells always give greatest penetration, longer range, greater killing power, and an even, well distributed pattern.

Du Pont Standard Smokeless Powder

Study the illustration at the left of the page showing the construction of RED HEAD Shells. Notice the heavy case, completely waterproofed throughout and positively sealed against moisture. The body of the shell will not swell and stick in the chamber. The powder, wadding and shot are kept dry. The crimp holds its shape and firmness. We load all RED HEADS with Du Pont Standard Smokeless Powder. Do not be misled by offers of inferior shells, using a low grade of so-called "smokeless" powder reclaimed from war stock.

Actual Tests Prove Red Head Wadding Superior!

After much experimenting and testing, we have found what we believe to be the best wadding in any shotgun shell. First we use a cardboard wad next to the powder; then a wad of Cork-Tex, made of resilient cork; and an elastic felt wad next to the shot. These wads, because of their great and uniform expansion, effectively seal the gas; will not blow to pieces.

No Lost Energy

With this improved wadding the shot charge leaves the gun driven by the full energy from the load which means greater penetration. At the muzzle the expanded, snug fitting wad is checked for a fraction of a second by the choke while the shot cluster travels on unbroken by gas blast or wadding, making a hard hitting, uniform pattern. In the 20-gauge shells, felt wads only are used.

The high fiber inside cup comes well above the brass and prevents "cut-offs." The high base primer means quick, complete ignition—another point of superiority of RED HEAD Shells. The brass bases are standard height for smokeless powder shells.

Notice the gas-tight battery cup expanded on the inside so it is locked securely to prevent loosening. Notice that the case extends down under base and is securely locked.

Best by Test

We test RED HEAD Shells ourselves to be sure they are standard in every detail. We also have them thoroughly tested at the Brandywine Laboratory of the Du Pont Powder Company for penetration and pattern.

In every test RED HEADS have proved themselves equal to or better than widely known shells selling regularly up to $1.25 a box. Compare them with any other make regardless of price. Test them by actual use. Then you, too, like thousands of others, will use RED HEAD Shells.

Red Head Dreadnaught Oval Powder Shells

For goose, duck and turkey shooting, where long range, hard hitting, close patterning loads are required, Red Head Dreadnought Shells have no equal. Loaded with Du Pont Oval, the progressive burning powder that gives increasing power to the shot charge as it goes down barrel. Breech pressure is lower, killing power greater, with less stringing of shot. The most effective long range loads yet produced. Yet you pay less than usual price of regular smokeless shells.

No Game Can Get Through

The illustration above shows a reduced "pattern" or distribution of shot from a Red Head Shell loaded with 3¼ dram powder, 1⅛-ounce No. 6 shot. The test was made with a well known 12-gauge shotgun at a distance of 30 yards. You can see how the pellets are so evenly distributed that it would be impossible for any game to pass through without some of the shot reaching a vital spot. At the longer distance of 40 and 60 yards, the targets also showed an even distribution of shot.

Order Your Shells by the Case and Save More

You can make an even greater saving by ordering our Red Head Shells by the case. Each case contains 500 shells, or 20 boxes of 25 shells each. Three or four shooters will find it profitable to club together and buy a case. You not only secure a much lower price on the shells but you also save on the freight or express charges.

More and more hunters each season are taking advantage of this easy, economical way of purchasing shells. In fact, many club together and order several cases at the beginning of the season. Speak to your friends about this plan. Anticipate your needs. Don't wait till you need them and then pay higher prices elsewhere. Order early.

How to Choose the Proper Load

Game Loads are shells loaded to get specific game. There is a Red Head Game Load made for each kind of game. We have selected the proper amount of powder, the kind and amount of shot to give the right shooting quality for the particular game you are going after.

Refer to the handy reference table to the right. The surest velocity, pattern and penetration have been worked out for you. By following this table you can choose easily and quickly the right load for the game you are hunting or for trap shooting.

Read *this* Letter

"This is my second order for Red Head Shotgun Shells. After using several different makes of shells I decided to try Red Heads and I have found them far superior to any others. I have hunted for twenty years and have killed more game with Red Heads than ever before with the same number of shells of any other make. I find Red Heads much more evenly loaded than the ordinary shotgun shell. They are extremely long range shells."
